Subject: Application for the post of “Software Engineer”

Dear Sir,

Upon reading the posting for a software engineer position with your company, I am eager to apply. I believe my skills will help me thrive in this role. Between my education and personal project experience, I am positive I'll be a strong addition to the team. I've worked extensively with technologies including Django, Python, Javascript, HTML, CSS, Bootstrap, Git, etc. and I learn new languages and technologies quickly. More importantly, I have a keen problem-solving skill awareness that has helped me succeed. I am eager to apply these skills to support your company in software engineering, and I'd be thrilled to discuss my qualifications more in person. I have also attached my full resume detailing my skills and achievements for your review.

I have completed my BSc. In CSE degree from the Department of Computer Science and Engineering of Bangladesh University of Business and Technology(BUBT).

I believe working in a reputed organization like yours will provide me with an excellent opportunity for my career. I would truly be grateful if I will finally be selected for the post. I will prove myself to be an important asset to your company through my dedication, sincerity, and highest level of professionalism.

Sincerely,

Md Ikbal Hosen
